Azucena Vieites

25 Sept - 07 Dec 2021

CarrerasMugica

CarrerasMugica is pleased to present *Selección de trabajos* (Selection of Works), the second exhibition by the artist Azucena Vieites, following her show at the gallery's Studio space in 2015.

The current project provides continuity to the dynamics of the artist's prior production by means of new organizations of the work. During the process of making the exhibition, it took on a mosaic form, like groupings of redolent fragments or intermittent flashes of end results. This method of preparing the project induced a certain discomfort while at once also leading to a sense of playfulness. Accordingly, all these different strands could potentially be woven together into a single thread within the overall context of the exhibition and produce a pattern that would take on an unforeseen meaning. Starting out from these premises, the exhibition couples already-existing aspects of the work with an interest in exploring the unknown, pivoting around the current moment.

To date Azucena Vieites has developed her work by engaging with contemporary visual culture using different recourses such as drawing and silk-screen prints. In ways it is almost as if she were presenting an aesthetic report on a present time whose intensity is becoming increasingly hazy and indistinct. The key components of her production are readily evinced in her use of multiplicity, fragmentation and repetition to disrupt the absolute image and linear forms of narration and also in the ephemeral quality consubstantial to her process-based practice.

*Azucena Vieites (Hernani, 1967). An artist whose work has been seen recently at the 11th Berlin Biennial (2020) and also in many group shows and projects. Her solo shows include: Rehacer Break Out of Your Shell, IVAM (Valencia, 2021); Playing Across Papers, Sala Alcalá 31 (Madrid, 2020-2021); Hey Baby!, Box 27, Casal Sol-leric (Palma, 2018); Woollen Body, CarrerasMugica (Bilbao, 2015); Tableau Vivant, Museo Nacional Centro de Arte Reina Sofía (Madrid, 2013); Fundido encadenado-Break You Nice, MUSAC (León, 2012); Oye lo que traigo, sala Rekalde (Bilbao, 2005). In 1994 she co-founded Erreakzioa, an initiative for the development of projects straddling art practice and feminist thinking. She is an associate professor at the schools of fine art at UCM and at USAL. She read her doctoral thesis Prácticas artísticas low-fi. Una aproximación al contexto vasco (1985-2005) in 2019. Her work can be found in the collection of museums and institutions such as Museo Reina Sofía, Artium, CA2M and MUSAC.*
